

Jaarverslag Urologie 2021 Antoni van Leeuwenhoek

Urologen

In 2021 had de afdeling Urologie een relatief jonge staf van 10 Urologen, 6 daarvan onder de 45 jaar. Alle Urologen continueerden hun persoonlijke focus op een onderdeel binnen de Uro-oncologie. Door de Corona pandemie waren nog steeds de meeste groepsbijeenkomsten en congressen alleen virtueel mogelijk en was er meer ruimte voor thuiswerken. Vrijwel alle grote live-congressen werden afgezegd of omgezet naar een virtuele meeting. Eenieder maakte ook deel uit van verschillende commissies binnen het AVL. Axel Bex en Ton Roeleveld hadden naast hun aanstelling in het AVL ook een aanstelling elders.

Esther Wit

Verpleegkundig specialisten

Binnen de afdeling waren 7 verpleegkundig specialisten (VS-ers) actief waarvan 2 in opleiding. 2 VS-ers verlieten ons voor een uitdaging elders. Hiervoor in de plaats werden nieuwe VS-ers geworven waarvan er inmiddels 1 al is gestart met de opleiding en de ander in de loop van 2022 met haar opleiding zal beginnen. Ook in 2021 heeft Jolien van Kesteren samen met Uroloog Pim van Leeuwen, veel werk verricht voor het centrum van vroegdiagnostiek (CVV) waar onder meer de vroegdiagnostiek naar prostaatkanker, vanuit het AVL zal worden ondergebracht.

Polikliniek

Door de corona crisis werden er in 2021 zoveel mogelijk telefonische controles gedaan en werden veel patienten-controles omgezet van een VE-controle naar een BE-controle. In totaal werden 23032 patienten contacten uitgevoerd op de polikliniek. Hiervan waren er 1642 nieuwe patienten, 354 nieuw-specialisme patienten binnen AvL, 5342 vervolg controles en 13446 telefonische consulten.

Multidisciplinair overleg (MDO)

In 2021 werden de volgende MDO's gehouden; Op maandag MDO-nier, overleg met OLVG en AMC, MDO-urinewegen, waar samen met de interventie radiologen casussen met problemen van de urinewegen werden besproken; Op dinsdag MDO Uro-oncologie en MDO-prostaatkanker. Op donderdag MDO-prostaatkanker, MDO salvage prostaatkanker en MDO-testiskanker. Tijdens de MDO's werden patienten multidisciplinair besproken. In 2021

was het nog steeds mogelijk om via teams in de MDO's in te loggen en zo mee te discussiëren. In de MDO's nierkanker op maandagochtend participeerden ook artsen en verpleegkundigen vanuit het OLVG en AUMC die hun eigen patiënten in het MDO inbrachtten. In totaal werden 2419 patienten op MDO's besproken.

Teleconference multidisciplinair overleg met andere klinieken

In 2021 werden met 6 klinieken standaard multidisciplinaire overleg momenten gehouden via Teleconference. Vanuit het AVL was steeds in ieder geval een uroloog, maar vaak ook een radiotherapeut en medisch oncoloog aanwezig. Op maandag was dat met OLVG en AUMC (niercarcinoom) en het St Jansdal Ziekenhuis, dinsdag met het OLVG (blaascarcinoom), woensdag met het Rode Kruis ziekenhuis, donderdag met het OLVG (prostaatcarcinoom) en het Spaarne Ziekenhuis en vrijdag met de NW-ziekenhuis groep. In vergelijking met 2020 is het aantal patienten dat werd besproken met 1.4% gestegen (**Tabel 1**).

ziekenhuis	Tabel 1. Patienten besproken in MDOs met de verschillende ziekenhuizen van 2017 tot en met 2021.						Totaal

Verpleegafdeling Afdeling

In 2021 werden voor de urologie 1947 opnames op de verpleegafdelingen gedaan (1442 perioperatief, 505 observatie of chemotherapie gerelateerde opnames). In 2020 waren dit er 1506en in 2019 waren dit er 1452). De meeste opnames vonden plaats op de 6^{de} etage. De ANIOS-stage urologie was ingedeeld in blokken van 3 weken voor de continuïteit van de zorg. Daarnaast draaiden de urologen mee in het onderwijs voor alle ANIOS van het HOD. Ook in 2021 was een ziekenhuisarts (Michelle Kint) actief voor de continuïteit van de medisch zorg op de afdeling waarbij zij de ANIOS superviseerde.

Onderzoek en Behandelcentrum (OBC)

Alle urologen waren actief op het OBC. In 2021 werden 2262 verrichtingen op het OBC gedaan waarvan 1667 cystoscopieën. In 2020 waren dit 2184 verrichtingen waarvan 1485 cystoscopieën (**tabel 4 a+b**).

Operatiekamers

In 2021 werden in totaal 1230 urologische ingrepen in het AVL verricht (**tabel 5**). Naast operaties op locatie AVL vonden ook ingrepen plaats in de academische ziekenhuizen Utrecht, Leiden en AUMC. In **fig. 2** een overzicht van de aantal operaties per tumortype van 2015-2021.

Total	1230

De afgelopen jaren is het aandeel van de operatieve ingrepen dat met de operatierobot werd uitgevoerd toegenomen (**fig.3**). Inmiddels worden de prostatectomie, cystectomie, (partiële) nefrectomie, klerdissectie, en brachytherapie van de blaas met de operatierobot uitgevoerd. Alle prostatectomieën die in 2021 werden verricht werden met de operatierobot uitgevoerd.

Fig.3. Verdeling robot-geassisteerde ingrepen en niet-robot-geassisteerde ingrepen

In de afgelopen jaren is de wachttijd tot OK voor de meeste ingrepen geleidelijk afgangen (fig. 4). Wel was er in 2021 een schommeling in de wachttijd voor de nierkanker operaties, gedeeltelijk te verklaren door een studie waarbij patienten voor de operatie worden voorbehandeld.

Fig. 4. Gemiddeld aantal dagen dat een patiënt op de wachtkist stond per maand per tumortype (2018-2021).

Complicaties

In het EPD werden alle complicaties de afgelopen jaren systematisch bijgehouden (tabel 6). Per jaar werden deze in een aantal complicatiebesprekingen (4x) tegen het licht gehouden en werden er specifieke maatregelen genomen ter voorkoming van complicaties zoals aanpassing van het beleid rond antibioticaprofylaxe, rond prostaatbiопten en het

antistollingsbeleid, na een bekkenklerdissectie. Het percentage complicatie-vrije behandelingen was 79% en iets gedaald ten opzichte van 2020.

Tabel 6. Complicaties bij urologische patiënten in het AVL (2020-2021).

Aan de afdeling verbonden promovendi in 2021

In 2021 waren er 6 promovendi direct verbonden aan de afdeling urologie (Hilda de Barros, Sarah Einerhand, Hans Veerman, Hielke-Martijn de Vries, Anne-Claire Berrens, Marias Hagens). Daarnaast deden een aantal promovendi van andere afdelingen en ziekenhuizen wetenschappelijk onderzoek op de afdeling, onder meer vanuit het LUMC, UMCU en AUMC.

Hilda de Barros

Sarah Einerhand

Hans Veerman

Hielke-Martijn de Vries

Anne-Claire Berrens

In 2022

Samenwerking

De fusie tussen voormalig AMC en VUMC, nu Amsterdam UMC (AUMC), zal in 2022 verder een belangrijke rol spelen in de netwerkvorming van de onco-urologische zorg in de regio. Nadat in 2021 alle prostatectomie procedures op locatie AvL werden uitgevoerd, is tevens een start gemaakt met de verplaatsing van een deel van de cystectomie procedures vanuit het AVL naar AUMC, locatie VUmc, voor 1 dag in de week. In 2022 zal verdere samenwerking op het gebied van blaaskanker worden uitgebouwd met een gezamenlijk MDO en inclusie van de patienten in studies op beide locaties.

Voor nierkanker zal het wekelijks MDO worden gecontinueerd waarbij ook andere regionale partners kunnen aansluiten.

Voor prostaatkanker zorg zal worden geëxperimenteerd met de regionale samenwerking op gebied van radiotherapie en medische oncologie. [PROSTAATKANKERNETWERK NEDERLAND](#)
